

Execuspecs The Glen and Spec-Savers Glenfair

We always tried sourcing our own insurance policies and resolve claims ourselves but found that it takes a significant amount of time, effort and frustration. Insurance companies also like to take chances with individuals who may be unaware of regulations and the fine print. This is where FAD financial brokers come in.

Many insurance companies make it almost impossible for claims to be sorted timeously, they may even make use of sub-standard repairers irrespective of what they advertise and/or settle claims incorrectly. This is why I appointed FAD Financial Brokers after encountering difficulties to settle valid insurance claims with reputable insurance companies. They took over the time-consuming task to follow-up and settle our claims after months of frustration.

When we appointed them they assessed our business needs and found areas we did not even know we should have cover for. Furthermore, their professional team has ensured that our insurance cover is far greater than what we had previously and they have proven to resolve complicated insurance claims on our behalf. I am grateful that we can phone and someone answers and when they say they will get back to you they do. FAD Financial Brokers delivers fantastic service and I they have managed to gain our trust. We highly recommend their services.
